

Eastern Ontario Crop Conference 2005 – February 17th

The Eastern Ontario Crop Conference is a co-operative effort between the Ontario Ministry of Agriculture, Food and Rural Affairs and the Eastern Ontario Crop Advisory Committee. This annual one day conference is held the third week of February at Kemptville College, University of Guelph.

The program is designed to provide growers and agri-business personnel with the latest in-depth crop management information. Participants have the option of selecting up to 8 sessions from approximately 25, presented concurrently throughout the day. This allows participants to select topics of importance and relevance to them. Certified Crop Advisor credits are available for most sessions.

Recent topics offered at the last conference included:

- Farm-Based Value Added Business
- Recognizing Market Opportunities
- More from Pastures
- Dealing with Winterkilled Forages
- Saving Energy On-the-Farm
- Organic Crops - Production and Marketing
- Doing it Right in Soil Management
- Soybean Aphids
- Managing Spray Drift
- Weed Management in RR Crops
- Factors Affecting Herbicide Activity
- Soybean Diseases – rust and SCN
- Corn Insect Seed Treatment
- 40% Greater Cereal Yields
- Weed Identification Clinic
- Sprayer Nozzle Clinic

Comments from a participant:

“Very timely topics, well organized, good variety of topics, well put together and planned, excellent handout literature and the conference program was highly effective.”
