

## Eastern Ontario Crop Conference 2010 – February 18<sup>th</sup>

The Eastern Ontario Crop Conference is a cooperative effort between the Ontario Ministry of Agriculture, Food and Rural Affairs and the Eastern Ontario Crop Advisory Committee. This annual one day conference is held the third week of February at the Kemptville Campus, University of Guelph.

The program is designed to provide growers and agribusiness personnel with the latest in-depth crop management information. Participants have the option of selecting up to 8 sessions from over 21, presented concurrently throughout the day. This allows participants to select topics of importance and relevance to them. Certified Crop Advisor credits are available for most sessions. Over 350 participants attended the 2010 Eastern Ontario Crop Conference.

Feature Presentation: Family Farm Ownership Succession and Transition of Management Control “*You Can Buy the Family Farm But Just Remember That I Still Own It*”, by Dr. Ronald J. Hanson, University of Nebraska

Topics offered concurrently at the conference included:

- Glyphosate Stewardship
- Weed Control in Corn
- Agronomics for 300 bushel corn!
- What’s new in weed management?
- Grain Storage - on-farm options
- Top Yielding Soybean Tips
- Future of Cereals
- Wet Wear & Hardware of Fertilizer Efficiency
- Soil Health, Carbon Sequestration and More
- Pest Alert - Insects and Diseases Outlook
- Haylage in a Day
- Corn Hybrids - Trait Management
- Grain Market Outlook and Strategies
- Field Gadgets
- Corn Concepts
- Green Energy
- Is Manure Enough?
- NASM : non-agricultural source materials
- Forages – tips on Preventing Alfalfa Winterkill
- Soybean Aphid Dynamic Action Threshold
