*OFCAF Ontario: Empowering Ontario's farmers and advisors to implement climate-friendly practices* will support Ontario farmers in their ongoing adoption of beneficial management practices (BMPs) that reduce greenhouse gas (GHG) emissions and store carbon, specifically for in-field nitrogen (N) management, expanding cover cropping, and implementing rotational grazing practices.

The **OFCAF Program Guide** is now available online. Visit the program guide to find detailed information on:

- Eligibility criteria (e.g., the practice must be new to the proposed acres)
- Available funding
- Documentation required with your application
- How to apply
- Participation in a Knowledge Sharing Event (KSE)
- Multi-year project opportunities & more...
